4th Avenue, Parklands Nairobi Kenya

woodlinesolutions.com

Leading distributor and exporter of panel products, decorative surfaces, edgebanding, door and flooring solutions in Kenya. We provide high quality and sustainable wood based products for residential and commercial projects.

We started our journey by opening the showroom in Parklands nairobi. We began to take firm steps, adhering to the principle of "I would rather lose money than lose people's trust".

Passion for wood and an approach based on constantly improving the understanding of design and quality have been the most important driving force in the rapid growth of the company on its industrial production infrastructure. Combining the mass production power of machines with the mastery of skilled hands and continuing to offer unique and original spaces to its customers by bringing the naturalness and warmth of wood to living spaces has become the distinguishing feature of the company.
